EDUCATION

Bachelor in Computer Application

Prime (Tribhuvan University)

Nov 2022 – Present

Higher Secondary Education

NCCS (Tribhuvan University)

July 2019 – Sep 2021

SKILLS

Technical Skills

- Playwright (JS/TS)
- Manual Testing (Functional, Regression, Smoke)
- Test Case Design & Execution
- SDLC & STLC Knowledge
- API testing
- Bug/Defect Tracking

Soft Skills

- Communication
- Teamwork and collaboration
- Problem-solving
- Attention to Details

Tools & Platforms

- Azure
- Git & Github
- Postman
- MS Excel (Test Cases)
- Jenkins

PROFESSIONAL CERTIFICATION

Playwright May 25,2026

Joy of React June 2,2025

PROFESSIONAL SUMMARY

Detail-oriented IT student with a keen interest in software testing, strong problem-solving abilities, and an analytical mindset. Known for patience and accuracy in identifying defects while working in fast-paced environments. Actively learning QA practices and tools to contribute effectively as a QA intern.

WORK EXPERIENCE

QA Intern, Iniziova Software Solutions

May 2026 – Present

- Tested and validated features of a School Management System application.
- Created and executed manual test cases and reported bugs.
- Performed regression and retesting to verify issue fixes.
- Used Playwright and JavaScript to automate selected test scenarios.
- Collaborated with developers to improve application quality and reliability.
- Identified, documented, and reported defects using clear bug descriptions and reproduction steps.

Full Stack Intern, Fusemachines

Dec 2025 – Mar 2026

- Architected and implemented a responsive Learning Management System (LMS) using React, TypeScript, and Tailwind CSS. Established a consistent design system using CSS tokens for improved maintainability.
- Integrated REST APIs using TanStack Query and implemented secure login/registration with session management (local/SessionStorage).
- Tested multi-step user registration flows to ensure accurate data validation and error handling
- Identified and resolved UI/UX inconsistencies and validation bugs
- Verified API responses and ensured correct data flow between frontend and backend
- Performed manual testing on LMS features (login, registration, exam flow)

PROJECTS

Automation Testing using Playwright

May 2026

- Developed and configured a comprehensive automated testing suite using Playwright, ensuring robust test coverage for web applications across multiple browsers (Chromium, Firefox, WebKit).
- Leveraged Playwright's auto-waiting features and dynamic selectors to build stable, flake-free test scripts for complex user workflows.
- Utilized asynchronous JavaScript/TypeScript to handle complex UI state transitions, authentications, and multi-page workflows seamlessly.
